

Workshop

What is needed for Successful Collaboration?

Collaboration Workshop: Blood Ordering and Issue

The whole process of how hospitals order/request blood from the blood service

Who are the top 3 stakeholders? 1).....2).....3).....

	Stakeholder Focus: Understanding the Stakeholder	Data Sharing Requirements	Agreed Joint Processes	Shared Key Performance Indicators
What is Required? The Perfect World!				
What do we have now?				
How do we bridge the gap?				

Collaboration Workshop: Predicting demand

How much blood will be required in future years? What information can be provided?

Who are the top 3 stakeholders? 1).....2).....3).....

	Stakeholder Focus: Understanding the Stakeholder	Data Sharing Requirements	Agreed Joint Processes	Shared Key Performance Indicators
What is Required?				
What do we have now?				
How do we bridge the gap?				

Collaboration Workshop: Delivery and Transport

The process for despatching and transporting units from the blood service to hospitals

Who are the top 3 stakeholders? 1).....2).....3).....

	Stakeholder Focus: Understanding the Stakeholder	Data Sharing Requirements	Agreed Joint Processes	Shared Key Performance Indicators
What is Required?				
What do we have now?				
How do we bridge the gap?				

Collaboration Workshop: Relationships across the Blood Supply Chain

The awareness of all components of the blood supply chain by all stakeholders from donor carers to nurses administering the transfusion

Who are the top 3 stakeholders? 1).....2).....3).....

	Stakeholder Focus: Understanding the Stakeholder	Data Sharing Requirements	Agreed Joint Processes	Shared Key Performance Indicators
What is Required?				
What do we have now?				
How do we bridge the gap?				

Collaboration Workshop: Sale or Return & Differential Pricing

The problems of low demand groups e.g. AB and high demand groups e.g. O Neg. Is differential pricing of blood groups appropriate?

Who are the top 3 stakeholders? 1).....2).....3).....

	Stakeholder Focus: Understanding the Stakeholder	Data Sharing Requirements	Agreed Joint Processes	Shared Key Performance Indicators
What is Required?				
What do we have now?				
How do we bridge the gap?				

Collaboration Workshop: What is an appropriate stock level?

How much blood should the blood services and hospitals be holding? If and when is wastage appropriate?

Who are the top 3 stakeholders? 1).....2).....3).....

	Stakeholder Focus: Understanding the Stakeholder	Data Sharing Requirements	Agreed Joint Processes	Shared Key Performance Indicators
What is Required?				
What do we have now?				
How do we bridge the gap?				

Collaboration Workshop: Use of Information and Communications Technology

Is information and communication technology used effectively throughout the blood supply chain? Are there developments we should be embracing?

Who are the top 3 stakeholders? 1).....2).....3).....

	Stakeholder Focus: Understanding the Stakeholder	Data Sharing Requirements	Agreed Joint Processes	Shared Key Performance Indicators
What is Required?				
What do we have now?				
How do we bridge the gap?				

Collaboration Workshop: Hospital Partnerships

*How can we develop hospital partnerships to ensure effective and safe management of blood?
What are appropriate processes for moving blood within and between hospitals?*

Who are the top 3 stakeholders? 1).....2).....3).....

	Stakeholder Focus: Understanding the Stakeholder	Data Sharing Requirements	Agreed Joint Processes	Shared Key Performance Indicators
What is Required?				
What do we have now?				
How do we bridge the gap?
